Introduction

The workflow has three parts (Figure 1).¹

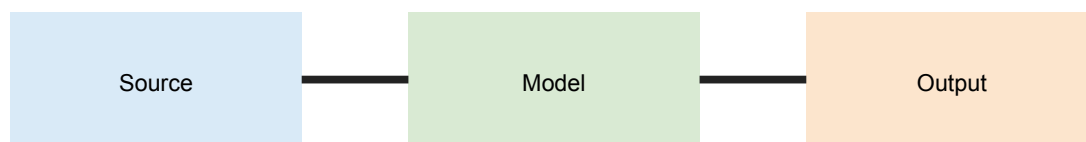

Figure 1. Source, semantic model and output

Structured content

1. First stage
 - Authored content
 - Typed metadata
2. Second stage
 1. DOCX output
 2. PDF output

Object	Identifier	Editable
Abstract	region:abstract	Yes
Version	metadata:version	Yes

The model includes the expression

$$R(t) = 1 - \exp(-H(t)). \quad (1)$$

Landscape content

Property	DOCX	PDF	JATS	Expected
Heading	Native	Native	Native	Preserved
Margin	Section	Page	Omitted	Reported

References

The approach follows a synthetic reference [1].

References
